Alabama State University
915 South Jackson Street,
Montgomery, Alabama 36104

March 30-April 1, 2023

Call for Abstracts

Conference Theme

The Future of the Allied Health Professions Workforce

The mission of the National Society of Allied Health (NSAH) is to serve as the official voice for Historically Black Colleges and Universities with schools or programs of allied health professions. As an organization that advocates for education, research, best practices, and professional development, we are in the position to impact the future of the allied health professions workforce. As such, the education and training of allied health professionals is central to the growth and development of a health care workforce that addresses the health disparities of underrepresented and disadvantaged populations. Diversity and cultural awareness may offer a foundation to support a caring, competent, and healthy workforce.

The NSAH invites you to submit abstracts of your presentation describing your innovations, best practices, and experiences that positively influence the future of the allied health professions.

Topics may include, but are not limited to:

- ✓ How the allied health professions are relevant, responsive, and committed to the promotion of health and wellness in underserved and disadvantaged communities
- ✓ How trends and the social determinants of health impact under-represented and disadvantaged communities of color
- ✓ Diversity, equity, and inclusion in allied health education
- ✓ Recruitment, and retention of skilled health professions, faculty, and administrators
- ✓ Support of work/life balance, and strategies for stress management and well-being of educators and health care practitioners, especially considering the lingering pandemic and the many social changes of the past two years
- ✓ Technology in allied health education and patient care
- ✓ Issues that pertain to transition from student to healthcare practitioner
- ✓ The value and sustainability of allied health professional organizations

Abstract Submission Instructions

1. Complete the Call for Abstract Proposal Form. See below.
2. Submit Call for Abstract Proposal Form to NSAHacamaabstracts@gmail.com with the subject line of “Abstract Submission for the 2023 NSAH Annual Conference and Meeting”.
3. **Abstracts must be received by close of business on Friday, December 2, 2022.**

Questions and concerns may be addressed to Dr. Gloria Rogers at rogersglpt@gmail.com.

All accepted abstracts will be published in the Journal of the National Society of Allied Health. Adherence to the submission instructions conforms to publication guidelines.

Bio Example

Gloria L. Rogers, PT, MMS, DPT. Dr. Rogers is a retired physical therapy educator, currently serving as Executive Director of the NSAH. She has extensive experience in teaching, administration, and clinical practice. During her career she has served as the Chairperson of the Department of Physical Therapy, College of Allied Health Sciences at Howard University and as Program Director of the Physical Therapy Program in the College of Medicine and Health Sciences at George Washington University, both in Washington, DC. She has served on a number of professional and community boards and commissions, including board member of the National Commission on Orthotic and Prosthetic Education, Chairperson of the Physical Therapy Examining Board of Washington, DC, and President of the Board of Directors of the Capital City Area Health Education Center. Her physical therapy experience and scholarly interests are in the evaluation and treatment of musculoskeletal dysfunction, health promotion and wellness during the aging process, and community education.
